OK. Please let me know how this turns out.

We've already talked about it; will try to get it straightened out this afternoon.

I have asked Larry, who was the inspector most involved in the Penn Plaza matter, to review the permit status today, if possible. Apparently no C/O has been issued because a fire alarm or something was not installed and inspected. In any case, I explained the situation to Larry and asked him to review the permit process and follow up by either approving issuance of a C/O or advising Mr. McConkey what needs to be done before one can be issued. I explained that this is a matter of some urgency due to our interaction with Sesko.

Jim

I need copies of the Certificates of Occupancy that you issued to Paul McConkey for his businesses at Penn Plaza.
